From the Author

In writing a text for the Advent Litany, it has been my aim to honor the images that sustain us from memory and tradition, and also to provide reference to those images that are known to us in the present. In regard to the later, I cite two: the urgent need for petitions regarding our stewardship of God's creation—Mother Earth, and our necessity to express ourselves in a language that embraces the needs of all human beings.

The Reverend Carl G. Carlozzi

From the Composer

It was my good fortune to attend lectures on the Advent Season given by The Reverend Geoffrey Butcher at the Church Music Conference Evergreen, Colorado in 1990. Dr. Butcher brought us a vision of the Advent Season as a time of quiet, joyful expectation in contrast to the conditioned observance of Advent as a time of somber and penitential reflection.

With such a vision in mind I felt an urgent need to discontinue the traditional use of the Great Litany at St. Mark's Cathedral on the First Sunday of Advent and replace it with a Litany more consistent with Dr. Butcher's model. With the support of Dean Northup, who wrote the initial text, the first use of the Advent Litany took place in December 1990. I wish to extend my deep gratitude to Geoffrey Butcher for his vision, Dean Northup for the opportunity to present the Litany in 1990 at St. Mark's, and to Carl G. Carlozzi for the final text and his generous and ingratiating support.

From the Editor

AN ADVENT LITANY is an extended prayer of joyful preparation set in responsorial style for use during the season of Advent.

In the early Church such prayers were associated with long processions asking for God's mercy and protection for the crops. Processional litanies were first used during the late fifth century on the three days before Ascension. Eventually the form was adopted throughout the Western Church and prescribed for use on days of special devotion.

The repetition of set responses gives the Litany its essential character. This Advent Litany is divided into six sections (Salutation, Confession, Preparation, Statements of the Christian faith, Prayers for various conditions, Kyrie) each separated by an organ interlude. It is especially appropriate on the Sundays of Advent, particularly the First Sunday. It may be used as the Entrance Rite for the Holy Communion. When so used, it is followed immediately by the Liturgy of the Word of God.

The musical setting provided here was conceived specifically for processional use, dramatizing our passage through this world toward that which is to come. The procession should encircle the entire assembly, reminding us that Christ's mercy surrounds us on every side.

For this edition, Peter Hallock has written out the organ improvisations. However, those skilled in the art of improvisation are encouraged to extemporize their own accompaniments and interludes, using the basic harmonic structures as their guide.

Although the handbell peals add a wonderful color and punctuation to the musical setting, their use is considered to be entirely optional. If bells are used, they may be played by the choristers or by a separate Handbell Choir placed in the midst of the procession. The bells should be allowed to vibrate without damping. The bell chords were conceived for Flemish-style bells. If English-style bells are used, it is recommended that additional pitches be added for brilliance and sonority. When handbells are not used, the organist may wish to accompany the solo cantor verses to help maintain the pitch.

It is important that the cantor and organist perform the litany from our edition **CH-1041C**. Our publication **CH-1041Ant** is for use by the Congregation.
